

Ground frame for fixing EVEVOSTD pole on concrete plinth.

HS code	73269098
Code	EVEVOFRAME
Type	EVEVOFRAME

DESCRIZIONE DEL PRODOTTO

Support to install the EVEVOSTD pole on land and asphalt, where blocking with chemical plugs is not sufficient and it is therefore necessary to cast a concrete plinth. On the EVEVOFRAME placed at ground level and with its J-shaped anchor bolts embedded in the plinth, it will then be possible to fix the EVEVOSTD post using bolts.
