

Software for marking for SmartPrint+ and SmartRoll printing systems

MarKing Pro XT is a software application for printing characters and images on tags and cards. It can be used with the SmartPrint+ and SmartRoll printers.

The software can support the use of both devices, also at the same time, and using it does not require particular IT skills. The programme, which is easy to use and extremely versatile, allows the user to define the marking parameters, with character and symbol sequences that can be adjusted to meet the needs of the user, and prints them on Cabur tags, which can be selected from a database included in the software.

MarKing Pro XT allows direct extraction of data from Excel, csv, txt etc. files and supports the Unicode format.

Thanks to its intuitive interface and visual elements, MarKing Pro XT is easy to use, and enables previewing of the end result before printing. Cabur offers a marking service, which can be provided on the basis of files created in MarKing Pro XT by the customer. Send Cabur your MarKing Pro XT files to receive a quotation and service that provides the utmost in efficiency and guarantees reliable results.
